THE GREAT FOOT RACE ON MONDAY NEXT. Amid the great hub-bub of the election, parties interested in this great piece of pedestrianism are not unmindful of what is expected from them. The competitors are in active training, and there is every expectation that greater feats will be performed on this occasion than ever has been done in this or any other country.

TROTTING MATCHES. - In these piping times, the lovers of trotting are not unmindful of their sport. There are two good matches announced to come off to-day, one over the Beacon Course, Hoboken, and the other over the Centreville Conree, Long Island. This is not a very judicious arrangement on the part of the parties interested; as many are desirous of witnessing both matches, which distance apart prevents.

SALE OF FLOWERS .- As will be seen by adver tisement in another column, there will be offered to-day at Franklin's auction mart, No. 15 Broad street, a number of extremely choice and beautiful Hyacinths. The sale takes place at half-past 10 o'clock. Let the lovers of flowers attend in time, as there will be keen competition.

### [From the Philadelphia Gazette.]

[From the Philadelphia Gazette.]

Shooting Stars — The time is fast approaching when we may anticipate the usual display of Meters. For several years past, andeven at an early period in the history of Astromony, these phenemens have been observed to recurrent the 12th or 13th of November.—
They have been seen and chronicled as recurring on one of these days in the following years:—A D 472, 1779, 1832, 1833, 1834, 1835, 1836, 1837, 1837, 1839, 1839, and probably in each succeeding year until the present time.

We have made arrangements to notice the shower this year—should we be lavored with one in a particular mannar. Having opened correspondence with persons in widely distant places, (vis:—Trinided, W. I. Cincinnati, O. New Haven, Conn., Reading and Lancaster, Fa.) we anticipate being able to furnish a good account of the minutest particulars. We solicit, also, the attention of Philadelphians to this subject.

We thank, at any rate, that these expectations ought to be as widely known by the ciliterate, as they are already known by the ciliterate of otherwise, if we should have a beavy shower, it would be paired against.

For the regulation of those who may be inclined to aid us, we respectfully offer the fellowing plan of observation:—

1. Let the pesition of these waters.

2. Whether it maintains its position with regard to the stars.

3. The number of meteors, in specified heurs

4. The tims of the greatest display.

5. The size, color, velocity and course of the most remark-ble meteors.

6. Whether the temperature is affected, either previous or subsequent to the display.

Tac point from whence the meteors emanated is situated in "Leo," and will rise about midnight. That the observation of the number may be effectual, we would recome mend that each observer assigns himself a certain field imagine a line drawn from the North Ster through the point of emanation, and continued South indefinitely, also another line at right angles with the first and centinued indefinitely, parallel with declination circles. Then, in his remarks, each observer will confine himself to one of these sections, and in his report, mention the one which he has taken. The impertance of these observations is such, that M. Arago instituted regular stations throughout France for this purpose; and the result was very satisfactory.

We hope our countrymea will not fall behind the age in this particular.

Philadelphia, Oct. 25 in this particular.
PHILADELPHIA, Oct. 25.

Zieber & Co., 3 Ledger Building, 3d street war Chesnut, have for sale a Politician's Register of all the votes from 1840 to the last Fennsylvania election. Price 12, 22, Canto.

All Philadelphia Subscriptions to the Herate must be paid to the agents, Zieber & Co., 3 Ledge buildings, 3d and Chesunt sta., where single copies may also bottained daily at 1 o'clock.

Constitutional Debility Cured.—The Tonic Mixture, prepared by the College of Medicine and Pharmacy of the city of New York, in configurity recommended for all cases of all the configurity recommended for all cases of all the configuration of the college of the configuration of the college of Medicine and Pharmacy, 95 Nassaw street W. S. RICHARDSON, M. D., Agent.

Fixtract of Cubebs, Copalva, and Sarsaparills (Dr. Glover's.)—This is the most speedy, certain, and effectual remedy for the cure of Gonorrhosa that has ever best seed. It is pleasant to the plate and grapful to the stomach and easily taken. It is a concentration of all the medicinal properties of such remedies as have been found most efficacious is cariog gleets, seminal weakness, and all discharges from the arisary reasage. It is wholly a vegetable compound, and actitice a charm in producing an immediate operation upon the part affected. Full directions accompany the medicine, which may be had at No. 2 Ann street. Price \$1.

. M. to 7 P. M.
Terms—Advice and Medicine \$5.—a cure guaranteed.
IMPORTANT TO COUNTRY INVALIDS.—Person
ving in the country, and finding it inconvenient to make reposal application, can have forwarded to them a chest containing
in medicines requisite to perform a radical cure, by stating theisac explicitly, together with all symptoms, time of contraction
of treatment received elsewhape; if any, and cuclosing \$5, possid, addressed tp. W. S. RICHARDSON, M. D., Agent,
Office and Consulting Rooms of the College, 25 Nassen as

Volpean's Specific Pills, for the Radical re of conorthes, gleet, seminal emissions, and all mocoparate discharges from the urethra. These pills, the result of early years experience in the Hospital de Chartie in Paris, are occurred by their celebrated investor, Professor Velpeau, as infallible remedy for all discusses of the urethra. They effect are in a much shorter time than any other remedy, without aring the breath, disagreed by with the stomach, or confinement as business. Price, \$1 per box. Sold at the College of Medical College of

ord s Parisian Alterative Mixture, for Ricord's Parisian Alterative Mixture, for the remains ture of primary or secondary sphilis, watered alcers, nodes, or any complaint produced by an injudicious use of mercury, or unskifful medical treatment. Sold at the College of Medicine and Pharmacy, 95. Nassau St. W. S. RIGHARDSON, M. D., Agent

W. S. RICHARDSON, M. D., Agent.

Rend what Sherman's Lozenges have done.

—A letter just received from Mr. Champlin, of Orient, L. I.,
states that Dr. Sherman's Lozenges are performing wonders
among the people, and that the demand is increasing every day.

In many cases, where the Camphor Lozenges have been used
for headache and nervous affections, they have produced immediate cures, and the Worm Lozenges have eradicated more
worms than any remedy that has ever been known. He writes
for a large supply, and states that they have never failed to give
satisfaction. How many there are who are suffering, and who
could find relief by trying these celebrated Lozenges. They are
always to be had at Dr. Sherman's warehouse, 106 Nassan st,
or of the Doctor's agents, 227 Hudson st.; 28 Bowert; 77 East
Broadway; 139 Faiton street, Brooklyn; 3 Ledger Buildings,
Philadelphia; and 8 State street, Boston.

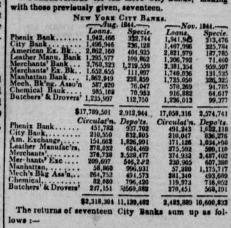

Mistakes are often fatal.—Many suppose a slight cough to be a trifle, and neglect it. It passes into consumption, and death follows. Sherman's Cough Lozenges would have speedly remedied the evil. Worms kill thousands, and the fance is not suspected. Dr. Sherman's Worm Lozenges are a specific. Trifle not—if worms are suspected, resort at once to this celebrated worm destroyer. Dr. Sherman's ware house is 168 Nassan atrect. Agent, 110 Bonadway; 10 Astor Heuse; 227 Hudson street; 186 Bowery; 77 East Broadway; 56 William street; 2 Ledger Buildings, Philadelphia; and 8 State street, Boston.

Wednesday, ov. 6-6 P. M. There was another great decline in stocks to day There was another great decline in stocks to day, eaused partly by the complexion of the political returns and partly by the movements going on in specie. Within four days from this there will be, without doubt, shipments of specie to Europe, amounting to full two millions of dollars. This has created quite a panic in the street, and given stocks a very severe blow. This might have been expected, and it is very surprising shipments of specie have been put off so long. The importations into this port alone for ten months, ending the lat inst. amounted to the immense sum of sixty-nine millions, eight hundred and seventy-two thousand three hundred and five dollars.—\$60,872,308—being within about fifteen. eight hundred and seventy-two thousand three hundred and five dollars \$60,672,305 being within about fifteen millions of the total importation into the country in 1542. This immense amount has not been offset by a corresponding amount of exports, but we have been compelled to pay so long in bills of exchange purchased by the proceeds of other industry, that we are now obliged to send the hard dollars. When the importations were coming in at the rate of ten millions a month, we predicted large whitements of specie before they were paid for Early in shipments of specie before they were paid for. Early in the season a strong disposition was manifested to put of the day of cettlement, and many philosophers assert a that creditors abroad were disposed to let the amount due them remain here on account of the great diff rencin the value of money between this country and Grea Britain. We predicted that the time of payment was only deferred, and that the amount of our indebtedness was

secumulating so repidly that when demanded it would not only be found too large to meet without drawing from us large amounts in specie, but would create a great deal of commercial embarrassment. The present condition of the stock market confirms our statements, and shows that a financial difficulty of this magnitude never loses its strength by being put off. The day of retribution has at last come, and we fear the result. The returns of the banks of this city show a continuation of their losus, and we should judge that a different course was to be pursued by these institutions during the funcertainty that now hangs over our commercial affairs, brought about by overtrading in merchandise and speculation in stocks.

We annex returns for ten more City Banks, making with those previously given, seventeen.

with those previously given, seventeen

The returns of seventeen City Banks sum up as follows:—

\*\*Aug. 1944. Nov.1844.\*\* Incr. Decr. Loans and discounts. \$41.254.311 40.236.398 — 1.015.121 Specie. 9.072.190 7.836.477 — 1.245.723 Circulation. 5.189.718 5.574.566 124.842 — 1.245.723 Circulation. 5.189.718 5.574.566 124.842 — 1.245.723 Circulation. 5.189.718 5.574.566 124.842 — 1.245.723 — 1t will be seen that seventeen banks of this city show a decrease in discounts of \$1.019.121, in specie of \$1.245.723, and an increase in the circulation of \$184.843, and in deposits of \$204.698. We are pleased to see a falling off in the leans and discounts, to an extent corresponding nearly with the decrease in specie, but the increase in circulation samnot be considered good policy in the bank directors. A farther falling off in the specie item of the city banks must soon belexperienced, and the prospect of a serious drain has already had its effect in the market. It is rumored that the Great Westera will take out a million of dollars in gold and silver, and the London packet of the 10th inst, has already two hundred thousand dollars engaged. Should the steamer take out the amount named, there must be a very great change in the state of our commercial affairs. These amounts place to a great extent, going forward en account of bill drawers.—We find that those remitting require first rate bills, and will not touch the cotton exchange in the market. This throws the demand into the hands of houses of known strength, whose bills are undoubted, but it compals them to keep their agencies abroad fully supplied with funds, which is the cause of the large shipments of the precious metals. Our importations are rapidly declining, and the balance against us on our foreign trade must, with our usual exports and the immense depreciation experienced in foreign manufactures, soon become regulated. Our exports of cotten immense depreciation experienced in foreign manufac-tures, soon become regulated. Our exports of cotton have been unusually heavy this season, but the great difficulty is the proceeds caunet; be readily realized, on account of the discredit under which all cotton bills suf-

We annex a table compiled from the Price Current showing the quantity of many of the principal articles imported into this port from Jan. 1st to Nov. 1st, 1843 and 1844. Included in this table will be found many of our staple domestic productions, received at this port from others coastwise. A very marked increase will be perceived in the importation of cotton, hides, coffee, mollasses, sugara, iron, brandy, and all descriptions of wine and many other articles of minor importance. lasses, sugers, iron, brandy, and all descriptions of wine' and many other articles of minor importance. This table by no means comprises all the imports. Foreign manufactures are not included, on account of the endless variety and the impossibility of obtaining or enumerating the various descriptions. The aggregate value of the manufactures of Europe imported into this country can only be obtained from the reports of the Treasury Department, which are few and far between. This table covers a period of ten months, and the receipts of several contracts. overs a period of ten months, and the receipts of some of the items, will be larger for the remaining two months than for any two previous

MERCHANTS' BANK OF MACON, GEO.

Oct. 1842. Oct. 1843. Ap. 1, '41.

Loans and discounts, \$171.702 105,071 131,077

Specie. 1842 2,831 93,666

Circulation, 18,64 9,959 67,179

Deposites, 1,608 16,087 4,032

Tuere has been quite a falling of in the discount line, and in the amount of specie on hand, while the deposites have increased very much. The latest movement of the bank amounts to \$288,532. Of the notes and exchange discounted \$45,080 are considered perfectly good, and the balance may be good, but the present tion of most of the parties indebted. In the report, the notes and bills in suit are set down at \$33,235, but it is stated that some change would be made in that amount to conform to compromises and senttlements made making.

NIBLO'S GRAND SALOON
FOR CONCERTS AND BALLS,
Is now fitting up for the winter amusements in magnificent
type; for concerts it has many advantages, having an arched
ceiling, favorable for secuel; and being removed from the street,
there is no annoyance from the noise of carriages. It has caracious galleries, and will accommodate 1500 persons. For Balls
it has a spring floor and raised seats on the side, and is magnificeatly lighted with splendid cut glass chandeliers. Attached to
the Saloon, and on the same floor there are private parlors, derasing rooms, managers' and hat rooms, and a supper room 200 feet
long, which will accommodate 600 persons. Great pains will
be taken to give satisfaction, and on moderate terms.

THE LAST WEEK of the PANORAMA OF MADRAS, by the unequalled Artist, W. Daniela, R. A.—This truly beautiful and effective representation covers a surface of 4000 squars feet, but from its admirable deceptive appearance, the eye seems to range over several nundred square miles, embracing the FORT OF MADRAS, beneath the surrounding CITY OF MADRAS; the COROMANDEL BEA; Terrific Breakers, through which the singular Indian Surf Boats are seen forcing their perilous way; while, on the other hand, the distant country bounds the prospect; the foreground rendered more interesting by the busy scene of Palanquins, Elephants, Camels, Dromedaries, Indian Oren, with thousands of native and Britch troops.

THE END OF THE WORLD.

OF VERY LARGE SIZE, by F. Anelli, at the Apollo (10 Broadway). The Exhibition is entirely separate from the Concert Room.

# BY THE SOUTHERN MAIL.

Philadelphia.

Philadelphia, Nov 6, 1844.

The most tremephous excitement prevailed here this morning, prior to the arrival of the express from New York, bringing the result of the election in your city. Hundreds of persons were congregated on the wharf anxiously waiting for the steambost. As soon as she arrived, and the numbers were anneunced, the most designing shouts rent the air—the news boys speed off in all directions with the Extra Hereld, and the intelligence was soon spread far and near, that the Democracy were again triumphant. The Democrats are as much elsted as their opponents are depressed. They will fire a salute of one hundred and twenty-s x guns for the Empire State tomorrow. PHILADELPHIA, N

There are no further returns from the interior of this state.

Patrick Murray, the keeper of a grocery store at the corner of Germantown Road and Jefferson street, was convicted of riot in the Court of Quarter Sessions this morning. During the conflict between the Natives and Irish at Kessington, in May nast, Murray's store seemed as a peind d'afferi for the latter. He was committed to the county prison to await his sentence.

The case of John Beatty versus the county of Philadelphia, came up for trial before the District Court this morning. The suit was brought to recover damages for the destruction of the plaintiff's house in a dwallader street, during the Kensington riots. The jury returned a verdict of \$469 04 for the plaintiff.

Ohto Election.

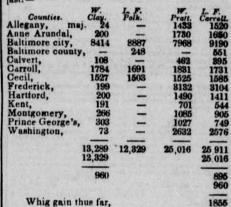

By the Southern Mail, we have returns from twenty-two additional counties, showing a steady whig increase since the last returns. No doubt exists that this State goes for Clay. The increase at present may amount to over 4,000.

Virginia Election.

Very little further information has been received from Virginia; but from every indication the State is likely to go for Polk and Dallas by about 5,000

Maryland Slection.

The following is the result, as far as ascertained, of the Presidential election held in Maryland on the 4th instant. The comparison is made with the Gubernatoriai election held on the 2d October Inst: -

New Jersey.

The election closed last night, but we could get no returns but the following-Hudson county has gone for the whigs by a decreased majority. In Newark, the North Ward has given 12 whig gain. The whig majority in Elizabethtown is decreased by 39 votes. These are the only particulars ob-
